

Amendments to the Specification:

Please replace the paragraph that begins on page 10, line 5 (the first full paragraph on page 10), with the following rewritten paragraph:

In addition to the image generating device aspect described hereinabove, the present invention in another aspect thereof may take the form of an image generating method invention. The invention may also be realized in various other aspects, for example, a computer program ~~for realizing these; a~~ or a recording medium having such a computer program recorded thereon; ~~or a data signal embodied in a carrier wave containing such a computer program thereon.~~ The various additional elements described hereinabove may be implemented in any of these aspects.
